'The total solution for your liquid nitrogen applications'

Cryo Solutions specialises in the field of cryogenic applications. Innovation and solution-oriented thinking together with commitment and high quality are at the heart of the service we provide. This combination makes Cryo Solutions a highly dependable partner in the market for cryogenic products, liquid nitrogen and services.

OUR QUALITIES:

- We supply cryogenic equipment, projects, services and liquid gases
- We can offer great expertise in all brands of nitrogen equipment
- We maintain the nitrogen equipment at 70% of all the university medical centres in the Netherlands
- We distribute liquid nitrogen from our own bulk tank
- We do this independently and using our own fleet of vehicles
- We fill containers/pressure vessels on site throughout the Netherlands
- We supply liquid nitrogen at department level
- We think in terms of efficiency and are therefore able to cut costs

YOUR ADVANTAGES:

- You conduct business with a specialised and renowned SME
- You deal with short lines of communication and fast response times
- You receive high quality, focus on safety, and reliable products and services from us
- You get realistic, transparent prices
- You receive excellent after sales services from us
- You can build a personal, long-term relationship with us

For whom is this important?

→ PROCUREMENT

Gas-related orders are often large-scale with a focus on bulk deliveries and cylinders. Small-scale deliveries of liquid nitrogen are often supplied as an afterthought and therefore not taken seriously by larger gas suppliers. The interests of the end users within your organisation can therefore sometimes be overlooked. In this respect, Cryo Solutions can serve as your 2nd partner offering:

- Liquid nitrogen (1-1500 litres)
- Liquid nitrogen equipment (rental/purchase)
- Freezer equipment
- Safety products
- Vacuum insulated piping
- Engineering
- Maintenance (from stand-alone to umbrella contract)
- 24-hour back-up service
- External biological storage facilities

→ FACILITIES / LOGISTICS / TECHNOLOGY / ACCOMMODATION

We provide the following for the distribution of liquid nitrogen to hospitals or to your organisation:

- Pressure and transport vessels
- Vacuum insulated piping
- Engineering
- Maintenance (from stand-alone to umbrella contracts)
- 24-hour back-up service
- Safety products

→ ARBO (DUTCH OCCUPATIONAL HEALTH AND SAFETY) / SAFETY / ENVIRONMENT

In the interests of 'the safe handling of liquid nitrogen', we supply:

- Cryogenic gloves
- Face protection
- Oxygen detection equipment (fixed and portable)
- Safety and product training

→ CLINICAL CHEMISTRY AND HAEMATOLOGY LABORATORY / DIAGNOSTICS / PHARMACY

These are often the departments where 'third parties' store their biological materials. Many of these departments' 'clients' are also Cryo Solutions clients, such as general practitioners. GPs form a communal target group with no 'conflict of interest'.

At the request and responsibility of the hospital, we can supply liquid nitrogen to general practitioners.

- Liquid nitrogen (1-1500 litres)
- Liquid nitrogen equipment (rental/purchase)
- Freezer equipment
- External biological storage facilities
- Safety products
- Cryo Medic: Nitrogen service at department level

General practitioners:

- Cryo Medic: Nitrogen service

→ DERMATOLOGY / SKIN COMPLAINTS

We provide the following for the distribution of liquid nitrogen to hospitals or to your organisation:

- Liquid nitrogen spray (CryoPro)
- Cryogenic gloves
- Nitrogen vessels with dispensing device (10-50 litres)
- Liquid nitrogen at department level (Cryo Medic)

→ IVF / FERTILITY / GYNAECOLOGY

Cryo Solutions has many years of expertise in supplying and maintaining cryogenic equipment for freezing and storing biological materials:

- Biological storage containers
- Transport vessels (dry transport)
- Freezer equipment
- Storage systems for straws
- Safety products
- Cryo Logistics: Nitrogen service at department level

→ PATHOLOGY / MICROBIOLOGY

- Biological storage containers
- Transport vessels (dry transport)
- Safety products
- Cryo Logistics: Nitrogen service at department level

→ OTHER DEPARTMENTS

Cryo Solutions rents and sells cryogenic equipment, products, services and liquid gases for every type of application imaginable, also to departments not normally associated with these products and services.

We can supply liquid nitrogen at department level and in whatever quantities are required. We have our own professional logistics system. We can also supervise the use of liquid nitrogen and liquid nitrogen equipment for specific purposes.
